

Please do not prioritize new LPFM stations over current translator stations. I listen to K-LOVE and would be lost without it. Not only is this station a positive & encouraging one, they give information on my community as well as thousands of others around the U.S. Instead of hearing the same news that every other station gives, K-LOVE brings in uplifting stories and information to enrich our daily lives. While other stations are helpful, K-love helps us reach out to other disadvantaged groups such as orphans, homeless and those with addictions. They truly care. Thank you.
